**R-P-A-N-S**  
There is scarcely any condition of ill-health that is not benefited by the occasional use of R-P-A-N-S Tablets. For sale by Druggists. The five-cent packet is enough for an ordinary occasion. The family bottle, 50 cents, contains a supply for a year.

## GUFFY'S RECORD

Shown up in its True Light by One Who Knows Him—Something of Mr. Pratt.

Mr. John B. Braher, of Madisonville, and the Hon. John S. Rhea, Democratic nominee for Congress, addressed a large crowd at Central City recently.

Mr. Rhea spoke in the interest of his congressional candidacy in his usual forcible style. Mr. Braher spoke for Judge Settle and took occasion to handle the Republican nominee, Judge B. L. D. Guffy, without gloves. Mr. Braher was introduced by James D. Wood, of the mine worker's union, and his speech of one hour was greeted with repeated outbursts of applause. In speaking of Judge Guffy, he said in part:

"I have nothing against Judge Guffy personally, but politically he is as ring-struck and striped as a raccoon's tail. He has been on every side of every political question—a high and a low tariff, a gold-bug and a free silverite, a prohibitionist and a whiskyite, all in the past few years. If he is your enemy to-morrow, he may be your enemy to-morrow. He is as changeable as the wind. I can cite you to sixteen decisions of the Court of Appeals in which he concurred personally or recognized as correct by decisions rendered by him while on the bench, that the Legislature had the constitutional right to create boards of county officers. Four of these cases arose under the Constitution of 1850 and the balance under the present Constitution. In the case of Pratt vs. Breckinridge, reported in the Twenty-third Kentucky Law Report, page 1,356, he reversed himself in all of these decisions in order to make Clifton J. Pratt Attorney General of Kentucky, and Clifton J. Pratt is one of the bitterest enemies of labor in Kentucky. He is president of the Hopkins County Bank; he is one of the largest stockholders in the Providence Coal Company, which owns and operates a non-union mine and works non-union labor at Providence, Ky., and is the identical company that indicted Jim Woods, Kit Barnaby and Sam Chappell for murder in the Webster Circuit Court."

"When these cases come on for trial, if those men are convicted and their cases appealed, Clifton J. Pratt will be the man to prosecute them before the Court of Appeals. The Providence Coal Company is trying to hang Jim Woods, Kit Barnaby and Sam Chappell for a crime in which, in my judgment, they played no part, and after Judge Guffy has thus wound the coils around the labor leaders of this district, he has the cheek to say that he is a friend of organized labor and expects their votes in the coming election. You may talk about gall, but this is the superlative brand. Is a wolf a friend to the lamb? Is a hawk a friend to the dove? If they are, then Judge Guffy is a friend to organized labor, and an union man who will vote for him in November with all these things staring him in the face, ought to be sent to an eye doctor for treatment."

Mr. Braher closed with an anecdote appropriate to the occasion, and was warmly congratulated by many of those present, among whom were several members of the miners' union.

## Lingering Summer Colds.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up an attack at once. Sore, sore, sore, once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. J. H. Williams, Hartford, Ky.

Three series of special interest, both because of their authorship and their subjects, are announced to appear in *The Outlook*. One is "The American Navy," by Ex-Secretary John D. Long, who is better equipped than any other living man to tell the inner history of the plans which made our navy capable of distinguishing itself in the war with Spain and of the plans now under way for the extension and strengthening of that navy; a second deals with race and industrial questions in the South, and is written by Mr. Walter Page, whose

## Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon to find a family afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of *Swamp-Root* is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have it sent by mail free, also pamphlet telling all about it, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

## THRILLING SIGHT

Will be the Collision of Engines at the Kentucky State Fair—A Great Show Promised.

Sure enough novelties are to be presented by the Kentucky State Fair Association at the Churchill Downs grounds during the week beginning September 22, this statement being authorized by Secretary M. W. Neal, who says that no such odd things as the "Midway" are being considered.

A contract has been closed whereby on Tuesday, September 23, there is to be a collision between railroad engines of at least 300,000 pounds each. While these engines, of course, have been condemned, they are capable of great speed, and will clash while going at no less than forty miles an hour.

A special track will be constructed, a spur being necessary for the Southern railroad to get the engines into the fair grounds. They will each have a fireman and engineer, who will cause the iron monsters to go through some revolutions, then the fire box will be filled and the throttles thrown wide open, engineers and firemen will leap for safety and let the public witness what, most unfortunately, does often occur on railroad life. This, however, will be a wreck only of metal. Care will be taken to keep people away from dangerous ground, yet there is a chance of witnessing a thrilling explosion, if boilers burst, and certainly a wreck.

The executive committee of the State Fair association has decided upon two special fair days, one to be "Kentucky day," when the Governor and his staff will be in attendance and the other "Louisville day," when the mayor and his staff will be in attendance.

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. All druggists.

**Another Eruption of Mt. Pelee.**  
PARIS, Sept. 4.—The Ministry of the Colonies received to-day another undated dispatch from Fort de France, Martinique, reporting an excessively intense eruption of Mont Pelee. The destructive radius extended into the interior of the island. During the night of August 30-31 Morne Rouge, Ajoupa Bouillon, Morne Bondon and the villages of Balai, Capot and Bellevue were destroyed. The dispatch further announced that there were 1,000 victims, 800 of whom were dead.

August 31 assistance and troops were sent to this region, Gov. Lemaire going on the French cruiser, *Souchet*, to evacuate Grande Riviere and Maconba, whence he brought 1,000 sufferers to Fort de France. The French cruiser *Souchet* rescued the inhabitants of the northern regions as far as St. Pierre, where there were no victims.

The Governor of Martinique has taken measures to give employment to those who are able to work, and to create centers of refuge in order to avoid overcrowding at Fort de France, which has not suffered from the recent eruptions. The same phenomena were noticed as at the time of the eruption of May last. The sea rose a meter and a half, but it did not cause any damage.

**A Sad Disappointment.**  
Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and purge, strain and break the glands of the stomach and bowels.

**Cancer Cured by Blood Balm—All Skin and Blood Diseases Cured.**  
Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm which effectually cured an eating cancer of the nose and face. The sores healed up perfectly. Many doctors had given up her case as hopeless. Hundreds of cases of cancer, eating sores, suppurating swellings, etc., have been cured by Blood Balm. Among others, Mrs. B. M. Guernsey, Warrior Stand, Ala. Her nose and tip were as raw as beef, with an offensive discharge from the eating sore. Doctors advised cutting, but it failed. Blood Balm healed the sore, and Mrs. Guernsey is as well as ever. Blood Balm also cures eczema, itching humors, scales and scales, bone pains, ulcers, offensive pimples, blood poison, carbuncles, scrofula, ringworm and bumps on the skin and all blood troubles. Druggists, 25¢ per large bottle. Sample of Botanic Blood Balm free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and special medical advice sent in sealed letter. It is certainly worth while investigating such a remarkable remedy, as Blood Balm cures the most fearful, worst and most deep-seated blood diseases.

**Roosevelt's Narrow Escape.**  
President Roosevelt had a hairbreadth escape from death last week at Pittsfield, Mass., when an electric street car struck and demolished a landau in which he was riding. He was thrown violently to the ground and bruised about the face. Secretary Cortelyou was slightly hurt in the back of the head. Gov. Crane, of Massachusetts, who was also in the carriage escaped injury. William Craig, a secret service agent who had accompanied the President on his New England tour, was instantly killed. D. J. Pratt, driver of the carriage, was seriously injured, but it is believed he will recover. The motor-man and conductor were placed under arrest on a charge of manslaughter. The President reached his home at Oyster Bay last night.

Josh Westhafer, of Logansport, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatism and muscular pains. It has cured numerous cases of partial paralysis. It is for sale by Z. Wayne Griffin & Bro., druggists.

**Big Railroad Figures.**  
The total single track railway mileage in the United States June 30, 1901, was 197,397 miles, this having increased during the year 8,893 miles.

The number of persons in the employment of the railroads of the United States June 30, 1901, was 3,071,109, or an average of 148 employees for 100 miles of line. As compared with June 30, 1900, the number of employees increased 53,516.

The amount of railway capital outstanding was \$41,088,177,091.

**A New Jersey Editor's Testimonial.**  
M. T. Lynch, editor of the Philadelphia Record, New Jersey, Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family, but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." All druggists.

## AN INDIAN CURE

For Typhoid Fever—How Old Eli Revived the Sick Medicine Man.

(Presque Isle (Maine) Cor. New York Sun.)  
Four weeks ago old Sandy Niccut, the great medicine man of the Micmac Indians, was discovered in his tent just outside the village unconscious, and suffering from a malady which the local doctor said was typhoid fever. He was taken to a house, where he revived, enough to tell his attendants that he would die unless Eli LeClare, a French-Canadian musician, who lives at Miramichi, was sent for.

A telegram was therefore sent to LeClare, asking him to come and bring his fiddle. Two days later, the wrinkled old Frenchman and his battered fiddle reached Presque Isle.

The medicine man was unconscious when Eli entered the sick room. The musician screwed up his instrument, twanged the strings for a moment and began to play in a minor key, the low notes rolling off from his bow like shavings under the stroke of the plane.

The sick man was tossing in a delirious fever when Eli started to play, but as the music continued he became more quiet, his respiration was less labored, and at the end of an hour he was sleeping quietly and peacefully.

"Heem bin goet well now," cried the fiddler. "Ah'm bin scar' ont ze fever fiddler, so Sandy heem bin sleep."

He sent for a pint of whisky and having drank more than one-half of it, he mixed the remainder with cold water and began to bathe the body of his friend, chanting an Indian lullaby while he worked, and making passes, such as are practiced by magicians when they try to exorcise evil spirits.

The patient rested well that night. When he awoke, Eli rubbed his bow across the catgut and reduced the temperature of his friend. For three weeks the French-Canadian watched by the bedside of the sick Indian, dosing himself with whisky and bathing the patient in whisky and water every hour.

The doctor, certain that the Indian would die, paid little heed to the case, besides calling once a day to take the temperature of the sick man. The fever ran its course, and on the twenty-first day, when it turned, Eli went out for half an hour, coming back with six large bullfrogs which he placed upon the sick man's body, three on each side.

After this he resumed his playing and did not stop sweeping the bow across the sounding strings until Sandy had broken out in perspiration and was sleeping easily.

"Now geev him one quart of cole milk," ordered the musician, "and him goet well."

When Sandy had taken the milk as ordered, and had slept for a few hours, he woke up and was able to recognize those around his bed. He felt the cold frogs against his skin and asked to have them removed. Eli turned back the sheet and took from the bed six swollen and discolored frogs, all of them dead.

"Fever devil heem go in ze frogs an' make ze frogs die," said Eli. "Now Sandy heem goet well pretty kreek."

Delivering himself of his diagnosis of the case, the musician took his fiddle from the table, put on his fur cap and walked down to the railroad station, where he purchased a ticket for Miramichi.

**Stood Death Off.**  
E. B. Munday, a lawyer of Henrietta, Texas, once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued to use them until he was wholly cured. I am sure Electric Bitters saved his life."

This remedy expels malarial, kills disease germs and purifies the blood, aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints, gives perfect health. Only 50¢ at Williams' drug store.

**Greatest Crop in Nation's History.**  
WASHINGTON, Sept. 3.—"If no damaging frost occurs within the next thirty days," said Secretary Wilson, of the Agricultural Department this morning, "there will be the greatest crop harvest this country ever saw."

"There are some territories, of course, where the crop is not up to the standard, but, generally speaking, the promise of a tremendous yield was never better. With this crop matured within the next month, and the feeding to be begun about the first of October, I feel confident that within three months you will see some reduction in the price of beef."

**A Certain Cure for Dysentery and Diarrhoea.**  
"Some years ago I was one of a party that intended making a long bicycle trip," says E. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the *Lancaster Messenger*, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effects. Again, last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and took one time one dose cured me." Sold by Z. Wayne Griffin & Bro., druggists.

**Cookery vs. Dressery.**  
An Osgood girl visited a cooking school recently and her attention was divided between a dress worn by a friend and directions for cooking a cake. So when she undertook to write the receipt for her mother, the old lady was paralyzed to read the following: "Take two

just started when, with a sweep of his hand, he knocked a large, valuable vase containing cut flowers, of the piglet, and the pieces fell upon those in the front pews. The congregation tittered.

A few moments later away went the large bible, which occupied the top of the desk. This, too, fell in the front pews. Next a glass containing ice water was sent flying against the choir loft and smashed, and the congregation moved in their seats, but when a table on which was a cut glass pitcher, filled with water, went over into the front ranks of the worshippers, it was more than they could stand, and a general laugh went up. Mr. Sweet laughed, too, and when quiet was restored, went on as if nothing had happened.

**Illiteracy of the Negroes.**  
Six cities—Washington, Baltimore, Philadelphia, New York, Chicago and St. Louis—now contain in the aggregate over 350,000 negroes, writes George S. Dickinson in the *Southern Workman*. It takes the largest eleven cities farther South to match this number—New Orleans, Memphis, Atlanta, Richmond, Charleston, Nashville, Savannah, Norfolk, Augusta, Montgomery and Mobile. During ten years, from 1890 to 1900, the six cities increased in their negro population over 100,000, while the eleven more southerly cities show an increase of less than 55,000. The six Northern cities have 355,000 negroes over ten years of age who can read and write, while the eleven cities have only 100,000.

But the illiteracy in the most backward cities is small compared with that of the rural portions of the South in those States where the negroes are most numerous. And while the illiteracy in the Northern cities is much less than in the South, the figures of the census are given for the smaller cities and for all towns of over 1,000 inhabitants, the same lessons would be emphasized probably with greater force. We would certainly see in a stronger light the deplorable ignorance prevailing in the regions remote from the centers. In the four States, Georgia, South Carolina, Alabama and Louisiana, more than half of the negroes in the whole State are illiterate. If we could separate the centers from the rest it would be found in many regions that the intelligence is hardly greater than fifty years ago.

**Engagement Off.**  
(Detroit Free Press.)  
"Yes, the engagement's off?"  
"Yes," he advised him to practice economy and he started in by getting her an imitation diamond."

**Medical Talk, a Family Magazine.**  
Medical Talk is the name of one of the most recent of popular medical magazines for the home before the public to-day. It appears in an unique, up-to-date magazine cover, an ornament to any library table.

Medical Talk is in the fourth year of its existence and covers a field never before accomplished in journalism. This magazine undertakes to interpret to the people what is going on in the medical world, as revealed by the numberless medical journals intended for the doctors only. It brings to the household important facts hidden from the people by medical technicalities. It deals in a popular way with such questions as vaccination, sanitary laws, cremation, dietary rules, and all drugless methods of healing diseases.

During the past three months almost every leading daily paper throughout the United States and Canada has had something to say about Medical Talk, either editorially or in their Magazine and Book Department. The opinions expressed are of the most complimentary nature.

Sample copy sent free by the Medical Talk Publishing Co., Columbus, Ohio.

**Facile Princess.**  
(Philadelphia Press.)  
"Champion poet of the town, is he?" inquired the summer boarder.

"Yes, sir," replied the Postmaster; "his record is three an' a half hours better in the next letter."

"What do you mean by that?"  
"Why, he wrote a poem, sent it to New York and got it back in 97 hours."

**A Communication.**  
Mr. Editor:—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with bronchitis, and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely cured me. W. S. Brockman, Baginell, Mo. This remedy is for sale by Z. Wayne Griffin & Bro., druggists.

**A Strenuous Preacher.**  
(Presque Isle (Maine) Cor. New York Sun.)  
In the First Presbyterian church of this city yesterday there was great excitement when Rev. W. I. Sweet, of Everett, Mass., in his excitement incident to preaching a stirring sermon, did about \$100 worth of damage.

Rev. Mr. Sweet is a mild-mannered man, but when warmed up in his sermons, makes many gestures. He had

## AN INDIAN CURE

For Typhoid Fever—How Old Eli Revived the Sick Medicine Man.

(Presque Isle (Maine) Cor. New York Sun.)  
Four weeks ago old Sandy Niccut, the great medicine man of the Micmac Indians, was discovered in his tent just outside the village unconscious, and suffering from a malady which the local doctor said was typhoid fever. He was taken to a house, where he revived, enough to tell his attendants that he would die unless Eli LeClare, a French-Canadian musician, who lives at Miramichi, was sent for.

A telegram was therefore sent to LeClare, asking him to come and bring his fiddle. Two days later, the wrinkled old Frenchman and his battered fiddle reached Presque Isle.

The medicine man was unconscious when Eli entered the sick room. The musician screwed up his instrument, twanged the strings for a moment and began to play in a minor key, the low notes rolling off from his bow like shavings under the stroke of the plane.

The sick man was tossing in a delirious fever when Eli started to play, but as the music continued he became more quiet, his respiration was less labored, and at the end of an hour he was sleeping quietly and peacefully.

"Heem bin goet well now," cried the fiddler. "Ah'm bin scar' ont ze fever fiddler, so Sandy heem bin sleep."

He sent for a pint of whisky and having drank more than one-half of it, he mixed the remainder with cold water and began to bathe the body of his friend, chanting an Indian lullaby while he worked, and making passes, such as are practiced by magicians when they try to exorcise evil spirits.

The patient rested well that night. When he awoke, Eli rubbed his bow across the catgut and reduced the temperature of his friend. For three weeks the French-Canadian watched by the bedside of the sick Indian, dosing himself with whisky and bathing the patient in whisky and water every hour.

The doctor, certain that the Indian would die, paid little heed to the case, besides calling once a day to take the temperature of the sick man. The fever ran its course, and on the twenty-first day, when it turned, Eli went out for half an hour, coming back with six large bullfrogs which he placed upon the sick man's body, three on each side.

After this he resumed his playing and did not stop sweeping the bow across the sounding strings until Sandy had broken out in perspiration and was sleeping easily.

"Now geev him one quart of cole milk," ordered the musician, "and him goet well."

When Sandy had taken the milk as ordered, and had slept for a few hours, he woke up and was able to recognize those around his bed. He felt the cold frogs against his skin and asked to have them removed. Eli turned back the sheet and took from the bed six swollen and discolored frogs, all of them dead.

"Fever devil heem go in ze frogs an' make ze frogs die," said Eli. "Now Sandy heem goet well pretty kreek."

Delivering himself of his diagnosis of the case, the musician took his fiddle from the table, put on his fur cap and walked down to the railroad station, where he purchased a ticket for Miramichi.

**Stood Death Off.**

**Cookery vs. Dressery.**  
An Osgood girl visited a cooking school recently and her attention was divided between a dress worn by a friend and directions for cooking a cake. So when she undertook to write the receipt for her mother, the old lady was paralyzed to read the following: "Take two

pounds of flour, three rows of plaiting down the front, the whites of two eggs cut bias, a pint of milk ruffled around the neck, half pound of currants, with seven yards of bead trimming, grated lemon peel with lace-fish; stir well and add a sm-ditting palette; with visite sleeves; garnish with icing and passementerie. Bake in a moderately hot oven until the skirt is trucked from the waist down on either side and finished with large satin rosettes."

**Study the Stars.**  
Even a little study of astronomy is calculated to impress one with the thought that earthly ideas of speed and space are very toy-like.

The earth travels around the sun at the rate of nineteen miles a second. That rate of speed would make a mile-an-hour train look as if it were standing still.

The sun, which keeps everything on this earth alive, is 95,000,000 miles away from us, but the planet Neptune, which is many times larger than the earth, and has a year equal to 164 of our years, is 2,896 million miles away from the sun.

Just think of having Christmas and birthdays and other annual festivities coming only once in 164 years!

The earth seems very large to us until we begin to travel around it, and it isn't very small. But just think of how tiny it is compared with the molten, massive ball, the sun, which is 111.5 times the diameter of the earth.

The study of the stars is among the most ancient of the studies.

The shepherds studied the stars while watching their flocks in Judea in the days of the Saviour.

Take a few minutes every clear night to get acquainted with the names and positions of the planets and constellations, and life will seem larger, grander and more wonderful to you.

**Master Commissioner's Sale.**  
OHIO CIRCUIT COURT, KENTUCKY.  
John W. Eisler, plaintiff, vs. Matthew Duncan, &c., defendants.

By virtue of a judgment and order of sale of the Ohio Circuit Court, rendered at the August term, 1902, in the above cause for the sum of \$336.32 with interest at the rate of 6 per cent. per annum from the 21st day of August, 1902, to the 21st day of October, 1902, about one o'clock, p. m., upon a credit of six months, the following described property, to-wit:

All the mining and mineral rights and privileges, right-of-way belonging to the following tract or parcel of land lying and being in the State of Kentucky, and county of Ohio and bounded as follows, viz: Beginning at a corner, red oak and hickory, Joel H. Westerfield's S. corner and in S. H. Sublett's S. line; thence with Westerfield's N. E. 1/4, 1204 poles to two black oaks and hickory near a branch, Westerfield's corner in Brown's S. 80 E., 1174 poles to an elm, hickory and dogwood, corner to S. H. Sublett's; thence with Sublett's West about 1174 poles to the beginning, containing 112 acres, more or less, for a period of fifteen years, to-wit: from the 1st day of April, 1900, to the 1st day of April, 1915, with one J. D. Bewley, who owns the above described tract of land and said contract of Ohio County Court Clerk's office, deed book No. 30, page 200.

Also the following property: Four bank cans, three oil cans and oil, two tamping bars, one coal needle, and one hundred feet of banking rails, or sufficient thereof to produce the sums of money ordered to be paid.

This 4th day of September, 1902.  
DORVAN HOLBROOK,  
Master Commissioner.  
3743 NEAL & BARNES, attorneys.

**After the Doctor.**  
(Towns Topics.)  
"What profession do you follow?"  
"I follow the medical profession; I'm an undertaker."

**Before and After Taking.**  
(Judge.)  
"Sary Ann," sighs the Higgins boy in tremulous tones, "if I get a red ear at the huskin' bee to-night I'm goin' to do somethin'."

"Are ye?"  
"Be."  
"What are ye a-goin' to do?"  
"If I git a red ear I'm a-goin' to take a kiss f'm you."
